JUST A FEW SEATS LEFT

Register now for CMT's exclusive Symantec DLP dinner.

Kevin Rowney, Founder of Vontu (now the Data Loss Prevention Division of Symantec), will discuss the "Anatomy of a Breach." He'll provide an overview of trends, causes, and circumstances of data breach; one of the most crucial security challenges facing enterprise today. Plus, he'll discuss the underlying risk factors, causes and primary defenses involved in large scale breaches.

Attendees will leave this informative session with several real-world anecdotes of breach, together with a practical knowledge on how various countermeasures (DLP, endpoint protection, HIDS, SIEM, etc.) can be employed to implement defenses against today's most serious attacks.

In addition to dinner, drinks and the presentation, all attendees will **receive a $100 AMEX gift check** for their time, and will be able to participate in **raffles for items such as a iPad**. Seating is limited.
